

Siva Teja

Software Engineer

Passionate front-end developer with 2.7+ years of professional experience in building and optimizing scalable and user-friendly web applications. Proficient in React Js, HTML5, CSS3 and JavaScript with a strong understanding of Redux Tool Kit. Dedicated to creating visually appealing and user-friendly interfaces that drive positive user experiences.

WORK EXPERIENCE

Xoriant Solutions Pvt. Ltd., Pune, MH.

Sep 2021 – Present

- Built React-based web application using semantic HTML5, JavaScript, ReactJS, and Tailwind CSS, implementing end-to-end functionality and ensuring a seamless user experience.
- Developed robust and scalable web applications using React Js ensuring high performance and optimal user experience.
- Collaborated with design and product team members to implement new feature developments.
- Developed and maintained reusable UI components, contributing to a more efficient development process and cohesive design language.
- Collaborated with designers and backend developers, translating design specifications into functional frontend components and ensuring smooth data integration.
- Conducted thorough testing and debugging to identify and resolve any front-end issues, optimizing performance and usability.
- Developed and tested the user interface as a front-end developer, Fixed User Interface related issues using react.js.

PROJECTS

Project Title : Daikin City

Jul 2023 – Present

- Developing the ongoing migration of a legacy project to a modern tech stack, demonstrating strategic vision and proactive problem-solving skills.
- Demonstrated proficiency as both developer and tester, ensuring seamless integration of new technologies while maintaining the integrity of existing functionalities.
- Upheld precise coding standards and testing, ensuring the delivery of high-quality, scalable software solutions that exceed industry standards.
- Ensured code quality and adherence to best practices through code reviews and continuous integration processes.

Project Title : HVAC & Daikin LMS Calendar

Oct 2022 – Jun 2023

- Designed and developed LMS calendar interface, allowing users to seamlessly browse and register for training events within the organization.
- Collaborated with backend developers to integrate frontend components with backend APIs, ensuring data consistency and reliability.
- Successfully fulfilled the responsibilities of both Frontend Developer and UI Tester, demonstrating adaptability and versatility within the project team.
- Conducted user testing to gather feedback and iterate on UI/UX improvements, resulted in enhanced usability and satisfaction.

Project Title : Xorpay Lite

Jan 2022 – Sep 2022

- Built a user-friendly web portal for displaying payment and invoice details on a dashboard made by customer.
- Assisted in creation of responsive layouts and UI components, contributing to user-friendly interfaces that adapt smoothly across devices.
- Supported senior developers by building and maintaining UI components, learning the ropes of efficient code structuring.
- Participated in troubleshooting and resolving frontend issues, ensuring prompt resolution and minimal disruption to user workflows.
